Foundry Burns Lake and Carrier Sekani Family Services Youth Services teamed up to offer a Back to School Fair for students in Burns Lake! The event took place on August 30th at the Margaret Patrick Memorial Centre. Attending students visited a variety of stations to help them prepare and pamper themselves for the upcoming school year. Wilf and Antoinette opened the event and welcomed students with drumming.

The event was funded by Carrier Sekani Family Services and Foundry, and planned by summer student, Jaden West.

Bannock hotdogs were a big hit, but you won't see any photos because they were eaten so quickly! The day was informal to let students see their friends and move between booths at their own pace. Students could get a free hair cut or have their hair braided, and at the nail art station students could have their nails painted or paint and style their own. In the afternoon, we played a round of bingo for prizes.

Youth Services brought two arcade games which were quite popular! The College of New Caledonia and Lake Babine Nation Schools joined us to share information about their programs and the upcoming school year. Thank you to the College of New Caledonia, LBN Schools, our caterer, and the hair stylists for putting on this successful event with us.
